Notice of Specification Change

We would like to inform you of a change in specifications for the following product.

Contents

1. Details of this change

Change of product supplier

Former : DLS Schmiersysteme

New : Gruetzner Automatic Lubrication

2. Applicable products

All rack and pinion lubrication systems

- Flex Pumps
- Grease cartridges
- Tubes
- Tube connectors
- Lubricated gears
- Mounting shaft for lubricated gears

3. Battery type flex pump and its replacement battery (FP400B, BT-6V)

These products will be made to order and will be quoted on a case-by-case basis.

There will be no price change for other products.

4. Implementation date

As soon as we run out of stock, we will begin to implement the change.

5. Compatibility

There will be no functional or quality compatibility issues between the new product and the previous product.

The color of operation keys and bayonet locks will be changed as shown below.

*The image below is of the 1 port type (image only)

Before change

After change

Best regards,

Naoji Kohara
